1. **NO POVERTY**
   Climate change threatens to undo how many years of progress in poverty reduction?
   - a) 10 years
   - b) 25 years
   - c) 50 years

2. **ZERO HUNGER**
   How much food waste does the world produce every year?
   - a) 1 Thousand Tonnes
   - b) 1 Million Tonnes
   - c) 1 Billion Tonnes

3. **GOOD HEALTH AND WELL-BEING**
   One in three outbreaks of new diseases is linked to:
   - a) Population displacement
   - b) Deforestation and land use changes
   - c) Accidents in research labs

4. **QUALITY EDUCATION**
   In India, in exchange for which item can some low-income families pay for their children's school?
   - a) Glass bottles
   - b) Compost from their organic waste
   - c) Plastic waste

5. **GENDER EQUALITY**
   How many women are farm owners in the world?
   - a) 52%
   - b) 13%
   - c) 75%

6. **CLEAN WATER AND SANITATION**
   The percentage of freshwater resources devoted to crops and livestock production in 2020 was?
   - a) 25%
   - b) 55%
   - c) 75%

7. **AFFORDABLE AND CLEAN ENERGY**
   Energy is the main contributor to climate change, producing:
   - a) 30% of greenhouse gases
   - b) 50% of greenhouse gases
   - c) 60% of greenhouse gases

8. **DECENT WORK AND ECONOMIC GROWTH**
   Which sector is predicted to be most affected by rising temperatures and climate change by 2030?
   - a) Agriculture
   - b) Tourism
   - c) Construction

9. **INDUSTRY, INNOVATION AND INFRASTRUCTURE**
   In 2019 developed countries invested $130 billion in renewable energy, how much did developing countries invest?
   - a) $25 billion
   - b) $50 billion
   - c) $150 billion
What is Oceanix?
- A comic character created by the UN in charge of saving the oceans
- The God of the Sea in Greek mythology
- A floating city that can offer solutions to climate change

The ocean is called "the lungs of the planet" because:
- The flow of the waves matches the rhythms of human breathing
- Half of the oxygen on earth is produced by plankton
- The ocean provides oxygen for marine creatures

Court cases against governments or private companies for climate inaction are rising. In early 2020, how many cases were filed in the world?
- 1,550
- 155
- 15

What does COP stand for?
- Conference of the public
- Change of policy
- Conference of the Parties

Earth Overshoot Day, the day when humanity has consumed nature's renewable "budget" of resources for the year, was last November in 2000. When was Overshoot Day in 2020?
- 31 December
- 27 September
- 22 August

How many people in the world depend on forests for subsistence and income?
- One in 5
- One in 50
- One in 500

How much has funding for climate change adaptation increased in recent years?
- 35%
- 15%
- 55%

Why are poorer communities more vulnerable to natural disasters?
- Because authorities protect the richest areas first
- Because they live in coastal areas
- Because they often have larger families that are difficult to evacuate

How many people in the world depend on forests for subsistence and income?
1. **NO POVERTY**

How many more people could fall into poverty by 2030 because of climate change?

- a) 12 million
- b) 120 million
- c) 1.2 million

2. **ZERO HUNGER**

We should eat less meat because:

- a) The meat industry is one of the leading sources of CO2 emissions
- b) The meat industry does not pay taxes
- c) The meat industry is not productive enough

3. **GOOD HEALTH AND WELL-BEING**

Air pollution is one of the most important environmental health risks of our time and is responsible for:

- a) 1 in 50 deaths
- b) 1 in 900 deaths
- c) 1 in 9 deaths

4. **QUALITY EDUCATION**

Education on climate change aims to:

- a) Provide assistance to schools affected by floods
- b) Increase renewable energy production in schools
- c) Raise awareness about the climate

5. **GENDER EQUALITY**

Why are rural women more affected by climate change than men?

- a) Because they are weaker
- b) Because they don't have insurance policies
- c) Because they produce 60% to 80% of the crops

6. **CLEAN WATER AND SANITATION**

It is estimated that an individual needs between 50 and 100 litres of water per day. What is the average daily water consumption in Mali?

- a) 11 litres
- b) 21 litres
- c) 51 litres

7. **AFFORDABLE AND CLEAN ENERGY**

Which country uses 100% renewable energy?

- a) Iceland
- b) Costa Rica
- c) Burkina Faso

8. **DECENT WORK AND ECONOMIC GROWTH**

The transition to a low greenhouse gas economy is expected to lead to:

- a) A loss of 15% of jobs
- b) A net creation of jobs
- c) A loss of 30% of jobs

9. **INDUSTRY, INNOVATION AND INFRASTRUCTURE**

The building industry is one of the biggest energy consumers in the world. What percentage of global energy use is this sector accountable for?

- a) 20%
- b) 40%
- c) 50%
**10 Reduced Inequalities**

What does ‘climate inequality’ mean?

a) Poorer countries will benefit the most from higher temperatures  
b) Not all countries have the same temperatures.  
c) Countries most affected by warmer temperatures have done the least to contribute to the problem.

---

**11 Sustainable Cities and Communities**

What is the urban heat island effect?

a) Urban areas experience more excessive heat than rural ones  
b) Urban populations use more heating in their homes consuming a lot of energy  
c) Cities have more infrastructure to cope with heat waves

---

**12 Responsible Consumption and Production**

According to UNEP, what percentage of disposable masks used during the pandemic will end in landfills?

a) None  
b) Half of them  
c) 75%

---

**13 Climate Action**

Global emissions of carbon dioxide (CO2) have increased since 1990 by how much?

a) 10%  
b) 22%  
c) 50%

---

**14 Life Below Water**

Between 1950 and 2016 global fishery catches have increased by:

a) Close to 100%  
b) Around 200%  
c) More than 400%

---

**15 Life on Land**

Why are bees essential to life on earth?

a) They enable production of fruits, vegetables, nuts, and seeds  
b) Their flight behaviour can indicate forthcoming storms  
c) They produce honey, a highly nutritious food for many species

---

**16 Peace, Justice and Strong Institutions**

Since 2017, the number of climate-related lawsuits have:

a) Decreased  
b) Stayed the same  
c) Doubled

---

**17 Partnership for the Goals**

What is the goal that states agreed to in the Paris Agreement in 2015?

a) To cut half the production of plastic by the end of the century  
b) To keep the rise in global temperatures this century to well below 1.5 to 2 degrees Celsius above pre-industrial levels  
c) To increase investment in infrastructure strengthening to reduce the impact of natural disasters

---

**Sustainable Development Goals**
In the poorest countries, climate change will push millions of people into extreme poverty because of:

- Reduced agricultural yields and higher food prices
- Governments switching to a greener economy
- Falling oil prices

Education is crucial in the context of climate change because:

- It promotes action and helps people understand and address climate change
- Educated people can migrate more easily and escape the impact of climate change
- Education provides more job opportunities

It is estimated that an individual needs between 50 and 100 litres of water per day. What is the average daily water consumption in the US?

- Around 100 litres
- Around 250 litres
- Around 600 litres

Despite their apparent will to promote renewable energy, what are countries doing that is counterproductive?

- They subsidize the fossil fuel industry to the tune of $5.2 trillion per year
- They cut investment in wind power in half in the last 5 years
- They can't agree on the benefits of biomass energy (because of the combustion process)

In what year did the Commission on the Status of Women consider climate change an obstacle to gender equality?

- 1998
- 2004
- 2008

How many people faced critical food insecurity because of conflicts, economic crises, and climate change in 2020?

- 55 million
- 155 million
- 5 million

How does global warming accelerate the transmission of disease by mosquitoes?

- Sudden changes in temperature accelerate the biting rate of mosquitoes
- Drought allows the diseases to spread to new areas
- Rising temperatures speed up the maturation process of the parasites they carry

How many ‘Green Jobs’ does forestry provide in the world?

- 450,000
- 9 Million
- 90 Million

Data centres, which are the basis of the internet network, are energy intensive. A medium-sized data centre (10,000 m²) consumes on average as much energy as...

- A city of 5,000 inhabitants
- A city of 50,000 inhabitants
- A city of 500,000 inhabitants
10 REDUCED INEQUALITIES
How much of the world’s wealth does the world’s richest 1% own?

a) 13.3%
b) 23.3%
c) 43.3%

11 SUSTAINABLE CITIES AND COMMUNITIES
Cities account for less than 2% of the earth’s surface. How much of the world’s energy do they consume?

a) 38%
b) 48%
c) 78%

12 RESPONSIBLE CONSUMPTION AND PRODUCTION
Is cheap/fast fashion sustainable?

a) No because people are all wearing the same clothes
b) No because it’s responsible for huge amounts of water waste, water pollution and greenhouse gas emissions
c) Yes, because it provides cheap clothing for all

13 CLIMATE ACTION
What is a greenhouse gas?

a) A gas that becomes green when released in the atmosphere
b) A gas produced by low energy houses
c) A gas that prevents heat from the earth escaping into space

14 LIFE BELOW WATER
When corals experience stress from hot temperatures or pollution they turn what colour?

a) Black
b) White
c) Grey

15 LIFE ON LAND
How many species are threatened with extinction?

a) 10,000
b) 100,000
c) 1,000,000

16 PEACE, JUSTICE AND STRONG INSTITUTIONS
What is the purpose of climate-related lawsuits against governments or companies?

a) Request financial compensation for plaintiffs
b) Compel the actors to pursue more ambitious climate change mitigation and adaptation goals
c) Change their leaders or managers

17 PARTNERSHIP FOR THE GOALS
Which country signed a US$150 million agreement with Gabon to support the preservation of its forests and thus reduce carbon emissions?

a) Norway
b) The African Union
c) Brazil
What does the concept of resilience mean in the context of climate change?

a) Acceptance of the consequences of climate change
b) The ability to anticipate, prepare for, and respond to the consequences of climate change
c) Support from the international community to countries affected by climate change

How does climate change affect education?

a) Students are losing days at school because they are joining climate protests
b) Extreme weather events destroy or damage school buildings
c) Large number of teachers in affected countries are migrating

By 2050, how many people could be living in areas where water is scarce for at least one month a year?

a) Up to 57 million
b) Up to 570 million
c) Up to 5.7 billion

Who said that the world should end the “deadly addiction to coal”?

a) António Guterres, UN Secretary General
b) Greta Thunberg, climate activist
c) Tedros Adhanom Ghebreyesus, head of the World Health Organisation

What is a green job?

a) A job that contributes to the preservation or restoration of the environment
b) A job in the forest management field
c) A job that can only be done outdoors

What is a circular economy?

a) Materials and products circulated free of taxes around the globe
b) Materials and products are sourced, transformed, and sold in at least four continents
c) Materials and products can be reused or recycled and thus remain in the economy for as long as possible
Today, around 55% of the world's population lives in towns and cities. What is the projected level of urbanisation in 2050?

a) 90%
b) 70%
c) 60%

How do the oceans help limit climate change?

a) Evaporation of water reduces the temperature of the atmosphere
b) The oceans absorb about 23% of annual human-induced CO2 emissions
c) Ocean water reflects sunlight

What is the impact of climate change on chocolate?

a) Cocoa beans will be too hot to handle
b) The cacao plant may disappear if global warming is not reversed
c) Chocolate production will become easier due to higher temperatures

Why is climate change considered a “threat multiplier” in conflict settings?

a) Because in a hot environment people are more likely to fight over a multitude of threats such as hurricanes, fires etc.
b) Because in conflict-affected settings the consequences of climate change can compound existing tensions
c) Because it is a divisive issue between states, a source of tension

“Nationally Determined Contributions” are the targets and commitments defined by each country to contain global warming. How often must they be updated?

a) Every 3 years
b) Every 5 years
c) Every 10 years

What are the economic opportunities of adapting to climate change?

a) Stimulation of investment and innovation and job creation
b) New lucrative digital businesses
c) Decrease of global population

What is the name of the gas that is responsible for 75% of the warming effect from greenhouse gases?

a) Carbon Dioxide (CO2)
b) Chlorine
c) Nitrous Oxide

Global video streaming consumption emits 300 million tons of CO2 per year. This is equivalent to the annual greenhouse gas emissions of which country?

a) Sudan
b) Spain
c) South Korea

What is the impact of climate change on chocolate?
According to the World Bank, what is extreme poverty?

a) Living on less than $1.9 a day
b) Being deprived of food longer than one day per week
c) Being unemployed

What is the percentage of global greenhouse gas emissions from food waste globally?

a) 0.5%
b) 2%
c) 8%

Which UN organisation is responsible for promoting “education for climate action”

a) UNESCO – The United Nations Educational, Scientific and Cultural Organization
b) UNICEF – The United Nations Children’s Fund
c) UNHCR – The UN Refugee Agency

Women are now running pastoralist communities in Sudan due to the impacts of climate change. Why?

a) Men are more vulnerable to disasters; they are the last to be rescued and therefore the first to die
b) Men tend to migrate for work, while women stay in the village all year round
c) Women tend to fight and speak up more against climate-related injustices

How many children under the age of five die of diarrhoeal diseases every day worldwide due to lack of appropriate water and sanitation services?

a) 7 per day
b) 70 per day
c) 700 per day

What does “mitigation” mean in the field of global warming?

a) Climate change mitigation refers to efforts to reduce or prevent emission of greenhouse gases.
b) Having both clean and fossil energy sources in almost equal proportions
c) Back-tracking in the move towards more sustainable energy

What are the characteristics of the green economy?

a) Low carbon, resource efficient and socially inclusive
b) Sourcing all materials from protected areas
c) Producing at least 50% of organic material

What is a positive energy building?

a) A building that doesn't need to outsource its energy
b) The primary energy consumption is equal to less than the energy supplied to the building
c) A building that gives inhabitants a sense of positivity and purpose
What is a '15-minute city'? 
- A city where all basic services are accessible in 15 minutes’ walk or bike ride
- A city built in 15 minutes from sustainable material
- A city situated less than 15 minutes from the capital

The existence of plastic in the ocean is a huge environmental problem. How many plastic bottles are sold in the world? 
- One million every day
- One million every hour
- One million every minute

What is the main driver of deforestation? 
- Paper, furniture and building production
- Agricultural expansion (palm oil, cattle ranches, and soy)
- Clearing space for people to live

What is a peacekeeper? 
- Peacekeepers are UN lawyers who take criminals and corrupt officials to court
- Peacekeepers are UN soldiers and civilians who monitor and observe peace processes in post-conflict zones
- Peacekeepers are UN Diplomats who build relationships between neighbouring countries

When is the international community aiming to reach net zero emissions of greenhouse gases? 
- By 2079
- By 2030
- By 2050
SUSTAINABLE DEVELOPMENT GOALS

GO GOALS!
Playing and building the future

www.go-goals.org
Dear friends!

Our aim is to help people understand their role in the future of the planet as individuals, team players and most importantly, as responsible global citizens.

In order to build a better world for everyone and the planet, the Member States of the United Nations have agreed to do their utmost to achieve 17 Sustainable Development Goals (SDGs) by 2030.

We need younger generations to be key players for a brighter future. For this purpose we have created the "Go Goals!" game for children aged 8–10. Designed to be fun and engaging, this game informs children while motivating them to actively pursue the SDGs.

Your role as an educator is crucial! With help from people like you, your family, your friends and community, we will be able to achieve the goals. Remember: even small steps can help to make a big difference if millions around the world are involved!

We hope that you enjoy this game! You are invited to download it and follow the instructions and rules below.

Thank you for making the world a better place!

**HOW TO PLAY THE GAME**

There are 63 spaces on the board game. Players advance the number of spaces determined by rolling a single dice.

Each player places their token on the Start field.

Players take turns to roll the dice and move their tokens forward the number of spaces as shown on the dice.

If a player lands at the bottom of a ladder, they can immediately climb to the top.

If a player lands at the top of a waterslide, they immediately move to the bottom of the slide.

If a player lands on a Sustainable Development Goal field (1–17), they can draw a card corresponding to the goal number. Another player should read the card question. A correct answer from the card drawer will allow the player to roll the dice once again.

The first player to arrive on the field '2030' is the winner!

If a player throws the required number, they must step forward into field '2030' and then move backwards the surplus number of spaces.

**HOW TO CONTRIBUTE TO THE SDGs**

Change begins with us. We need to make sure we are well informed about the causes and possible solutions to the world’s issues. Only then can we make small positive actions in our everyday lives: from talking constructively with our families, friends and communities, to organizing ourselves and urging governments to listen to the voices of their citizens.

For 4 to 6 players
Playing time: 30 to 40 mins
THE SUSTAINABLE DEVELOPMENT GOALS are 17 global targets designed to end poverty, protect the planet and ensure prosperity for all.

1. NO POVERTY
   END POVERTY IN ALL ITS FORMS EVERYWHERE

2. ZERO HUNGER
   END HUNGER, ACHIEVE FOOD SECURITY AND IMPROVED NUTRITION AND PROMOTE SUSTAINABLE AGRICULTURE

3. GOOD HEALTH AND WELL-BEING
   ENSURE HEALTHY LIVES AND PROMOTE WELL-BEING FOR ALL AT ALL AGES

4. QUALITY EDUCATION
   ENSURE INCLUSIVE AND EQUITABLE QUALITY EDUCATION AND PROMOTE LIFE LONG LEARNING OPPORTUNITIES FOR ALL

5. GENDER EQUALITY
   ACHIEVE GENDER EQUALITY AND EMPOWER ALL WOMEN AND GIRLS

6. CLEAN WATER AND SANITATION
   ENSURE AVAILABILITY AND SUSTAINABLE MANAGEMENT OF WATER AND SANITATION FOR ALL

7. AFFORDABLE AND CLEAN ENERGY
   ENSURE ACCESS TO AFFORDABLE, RELIABLE, SUSTAINABLE AND MODERN ENERGY FOR ALL
8. **DECENT WORK AND ECONOMIC GROWTH**  
PROMOTE SUSTAINED, INCLUSIVE AND SUSTAINABLE ECONOMIC GROWTH, FULL AND PRODUCTIVE EMPLOYMENT AND DECENT WORK FOR ALL

9. **INDUSTRY, INNOVATION AND INFRASTRUCTURE**  
BUILD RESILIENT INFRASTRUCTURE, PROMOTE INCLUSIVE AND SUSTAINABLE INDUSTRIALIZATION AND FOSTER INNOVATION

10. **REDUCED INEQUALITIES**  
REDUCE INEQUALITY WITHIN AND AMONG COUNTRIES

11. **SUSTAINABLE CITIES AND COMMUNITIES**  
MAKE CITIES AND HUMAN SETTLEMENTS INCLUSIVE, SAFE, RESILIENT AND SUSTAINABLE

12. **RESPONSIBLE CONSUMPTION AND PRODUCTION**  
ENSURE SUSTAINABLE CONSUMPTION AND PRODUCTION PATTERNS

13. **CLIMATE CHANGE**  
TAKE URGENT ACTION TO COMBAT CLIMATE CHANGE AND ITS IMPACTS

14. **LIFE BELOW WATER**  
CONSERVE AND SUSTAINABLY USE THE OCEANS, SEAS AND MARINE RESOURCES FOR SUSTAINABLE DEVELOPMENT

15. **LIFE ON LAND**  
PROTECT, RESTORE AND PROMOTE SUSTAINABLE USE OF TERRESTRIAL ECOSYSTEMS, SUSTAINABLY MANAGE FORESTS, COMBAT DESERTIFICATION, AND HALT AND REVERSE LAND DEGRADATION AND HALT BIODIVERSITY LOSS

16. **PEACE, JUSTICE AND STRONG INSTITUTIONS**  
PROMOTE PEACEFUL AND INCLUSIVE SOCIETIES FOR SUSTAINABLE DEVELOPMENT, PROVIDE ACCESS TO JUSTICE FOR ALL AND BUILD EFFECTIVE, ACCOUNTABLE AND INCLUSIVE INSTITUTIONS AT ALL LEVELS

17. **PARTNERSHIPS FOR THE GOALS**  
STRENGTHEN THE MEANS OF IMPLEMENTATION AND REVITALIZE THE GLOBAL PARTNERSHIP FOR SUSTAINABLE DEVELOPMENT
**DO IT YOUR SELF KIT**

**DICE**

![Dice template]

**WHAT YOU NEED**
1. A color printer ideally in colour for A4 and A3 format sheets
2. X sheets in A4 and X sheets in A3 formats
3. Scissors
4. Glue
5. Coloured pens

**PREPARING THE MATERIALS**
1. Cut out dice and player tokens
2. Have fun creating and coloring your own player tokens
3. Glue the dice and player tokens

**PLAYER - TOKEN**

![Player token template]
Thank you for playing with us!

Stay in touch and get involved by:

- Registering on the website for e-news on the game, including updates to questions, new language versions and much more
- Sending us your suggestions and feedback. Tell us how you’ve been using the game, what the children think, and how you think we can improve the game
- Submitting questions for the game
- Spreading the word on social media, using #SDGGame, share and tag yourself playing the game. We would love to feature pictures and videos of you playing the game on our social media

To contribute to a local language version and for queries related to the project, please contact: info@go-goals.org

The Sustainable Development Goals board game, “Go Goals!” was created and designed by the United Nations Regional Information Centre (UNRIC), in partnership between the artist Yacine Ait Kaci (YAK), creator of Elyx.

The “Go Goals!” board game may be reproduced without prior permission, provided that it be distributed at no cost.

The drawings by YAK included in this board game are protected by copyright and can only be reproduced to illustrate the SDGs.

Publishers are required to include proper credits.

All queries or suggestions concerning the game should be addressed to info@go-goals.org.
