

## 1 NO POVERTY

Climate change threatens to undo how many years of progress in poverty reduction?

- a) 10 years
- b) 25 years
- c) 50 years

## 2 ZERO HUNGER

How much food waste does the world produce every year?

- a) 1 Thousand Tonnes
- b) 1 Million Tonnes
- c) 1 Billion Tonnes

## 3 GOOD HEALTH AND WELL-BEING

One in three outbreaks of new diseases is linked to:

- a) Population displacement
- b) Deforestation and land use changes
- c) Accidents in research labs

## 4 QUALITY EDUCATION

In India, in exchange for which item can some low-income families pay for their children's school?

- a) Glass bottles
- b) Compost from their organic waste
- c) Plastic waste

## 5 GENDER EQUALITY

How many women are farm owners in the world?

- a) 52%
- b) 13%
- c) 75%

## 6 CLEAN WATER AND SANITATION

The percentage of freshwater resources devoted to crops and livestock production in 2020 was?

- a) 25%
- b) 55%
- c) 75%

## 7 AFFORDABLE AND CLEAN ENERGY

Energy is the main contributor to climate change, producing:

- a) 30% of greenhouse gases
- b) 50% of greenhouse gases
- c) 60% of greenhouse gases

## 8 DECENT WORK AND ECONOMIC GROWTH

Which sector is predicted to be most affected by rising temperatures and climate change by 2030?

- a) Agriculture
- b) Tourism
- c) Construction

## 9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

In 2019 developed countries invested \$130 billion in renewable energy, how much did developing countries invest?

- a) \$25 billion
- b) \$50 billion
- c) \$150 billion

## 10 REDUCED INEQUALITIES

Why are poorer communities more vulnerable to natural disasters?

- a) Because authorities protect the richest areas first
- b) Because they live in coastal areas
- c) Because they often have larger families that are difficult to evacuate

## 11 SUSTAINABLE CITIES AND COMMUNITIES

What is Oceanix?

- a) A comic character created by the UN in charge of saving the oceans
- b) The God of the Sea in Greek mythology
- c) A floating city that can offer solutions to climate change

## 12 RESPONSIBLE CONSUMPTION AND PRODUCTION

Earth Overshoot Day, the day when humanity has consumed nature's renewable "budget" of resources for the year, was 1st November in 2000. When was Overshoot Day in 2020?

- a) 31 December
- b) 27 September
- c) 22 August

## 13 CLIMATE ACTION

How much has funding for climate change adaptation increased in recent years?

- a) 35%
- b) 15%
- c) 55%

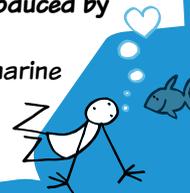

## 14 LIFE BELOW WATER

The ocean is called "the lungs of the planet" because:

- a) The flow of the waves matches the rhythms of human breathing
- b) Half of the oxygen on earth is produced by plankton
- c) The ocean provides oxygen for marine creatures

## 15 LIFE ON LAND

How many people in the world depend on forests for subsistence and income?

- a) One in 5
- b) One in 50
- c) One in 500

## 16 PEACE, JUSTICE AND STRONG INSTITUTIONS

Court cases against governments or private companies for climate inaction are rising. In early 2020, how many cases were filed in the world?

- a) 1,550
- b) 155
- c) 15

## 17 PARTNERSHIP FOR THE GOALS

What does COP stand for?

- a) Conference of the public
- b) Change of policy
- c) Conference of the Parties

# SUSTAINABLE DEVELOPMENT GOALS

## 1 NO POVERTY

How many more people could fall into poverty by 2030 because of climate change?

- a) 12 million
- b) 120 million
- c) 1.2 million

## 2 ZERO HUNGER

We should eat less meat because:

- a) The meat industry is one of the leading sources of CO2 emissions
- b) The meat industry does not pay taxes
- c) The meat industry is not productive enough

## 3 GOOD HEALTH AND WELL-BEING

Air pollution is one of the most important environmental health risks of our time and is responsible for:

- a) 1 in 50 deaths
- b) 1 in 900 deaths
- c) 1 in 9 deaths

## 4 QUALITY EDUCATION

Education on climate change aims to:

- a) Provide assistance to schools affected by floods
- b) Increase renewable energy production in schools
- c) Raise awareness about the climate

## 5 GENDER EQUALITY

Why are rural women more affected by climate change than men?

- a) Because they are weaker
- b) Because they don't have insurance policies
- c) Because they produce 60% to 80% of the crops

## 6 CLEAN WATER AND SANITATION

It is estimated that an individual needs between 50 and 100 litres of water per day. What is the average daily water consumption in Mali?

- a) 11 litres
- b) 21 litres
- c) 51 litres

## 7 AFFORDABLE AND CLEAN ENERGY

Which country uses 100% renewable energy?

- a) Iceland
- b) Costa Rica
- c) Burkina Faso

## 8 DECENT WORK AND ECONOMIC GROWTH

The transition to a low greenhouse gas economy is expected to lead to:

- a) A loss of 15% of jobs
- b) A net creation of jobs
- c) A loss of 30 % of jobs

## 9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

The building industry is one of the biggest energy consumers in the world. What percentage of global energy use is this sector accountable for?

- a) 20%
- b) 40%
- c) 50%

## 10 REDUCED INEQUALITIES

What does 'climate inequality' mean?

- a) Poorer countries will benefit the most from higher temperatures
- b) Not all countries have the same temperatures.
- c) Countries most affected by warmer temperatures have done the least to contribute to the problem.

## 11 SUSTAINABLE CITIES AND COMMUNITIES

What is the urban heat island effect?

- a) Urban areas experience more excessive heat than rural ones
- b) Urban populations use more heating in their homes consuming a lot of energy
- c) Cities have more infrastructure to cope with heat waves

## 12 RESPONSIBLE CONSUMPTION AND PRODUCTION

According to UNEP, what percentage of disposable masks used during the pandemic will end in landfills?

- a) None
- b) Half of them
- c) 75%

## 13 CLIMATE ACTION

Global emissions of carbon dioxide (CO<sub>2</sub>) have increased since 1990 by how much?

- a) 10%
- b) 22%
- c) 50%

## 14 LIFE BELOW WATER

Between 1950 and 2016 global fishery catches have increased by:

- a) Close to 100%
- b) Around 200%
- c) More than 400%

## 15 LIFE ON LAND

Why are bees essential to life on earth?

- a) They enable production of fruits, vegetables, nuts, and seeds
- b) Their flight behaviour can indicate forthcoming storms
- c) They produce honey, a highly nutritious food for many species

## 16 PEACE, JUSTICE AND STRONG INSTITUTIONS

Since 2017, the number of climate-related lawsuits have:

- a) Decreased
- b) Stayed the same
- c) Doubled

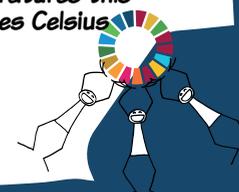

## 17 PARTNERSHIP FOR THE GOALS

What is the goal that states agreed to in the Paris Agreement in 2015?

- a) To cut half the production of plastic by the end of the century
- b) To keep the rise in global temperatures this century to well below 1.5 to 2 degrees Celsius above pre-industrial levels
- c) To increase investment in infrastructure strengthening to reduce the impact of natural disasters

# SUSTAINABLE DEVELOPMENT GOALS

## 1 NO POVERTY

In the poorest countries, climate change will push millions of people into extreme poverty because of:

- a) Reduced agricultural yields and higher food prices
- b) Governments switching to a greener economy
- c) Falling oil prices

## 2 ZERO HUNGER

How many people faced critical food insecurity because of conflicts, economic crises, and climate change in 2020?

- a) 55 million
- b) 155 million
- c) 5 million

## 3 GOOD HEALTH AND WELL-BEING

How does global warming accelerate the transmission of disease by mosquitoes?

- a) Sudden changes in temperature accelerate the biting rate of mosquitoes
- b) Drought allows the diseases to spread to new areas
- c) Rising temperatures speed up the maturation process of the parasites they carry

## 4 QUALITY EDUCATION

Education is crucial in the context of climate change because:

- a) It promotes action and helps people understand and address climate change
- b) Educated people can migrate more easily and escape the impact of climate change
- c) Education provides more job opportunities

## 5 GENDER EQUALITY

In what year did the Commission on the Status of Women consider climate change an obstacle to gender equality?

- a) 1998
- b) 2004
- c) 2008

## 6 CLEAN WATER AND SANITATION

It is estimated that an individual needs between 50 and 100 litres of water per day. What is the average daily water consumption in the US?

- a) Around 100 litres
- b) Around 250 litres
- c) Around 600 litres

## 7 AFFORDABLE AND CLEAN ENERGY

Despite their apparent will to promote renewable energy, what are countries doing that is counterproductive?

- a) They subsidize the fossil fuel industry to the tune of \$5.2 trillion per year
- b) They cut investment in wind power in half in the last 5 years
- c) They can't agree on the benefits of biomass energy (because of the combustion process)

## 8 DECENT WORK AND ECONOMIC GROWTH

How many 'Green Jobs' does forestry provide in the world?

- a) 450,000
- b) 9 Million
- c) 90 Million

## 9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

Data centres, which are the basis of the internet network, are energy intensive. A medium-sized data centre (10,000 m<sup>2</sup>) consumes on average as much energy as ...

- a) A city of 5,000 inhabitants
- b) A city of 50,000 inhabitants
- c) A city of 500,000 inhabitants

## 10 REDUCED INEQUALITIES

How much of the world's wealth does the world's richest 1% own?

- a) 13.3%
- b) 23.3%
- c) 43.3%

## 11 SUSTAINABLE CITIES AND COMMUNITIES

Cities account for less than 2% of the earth's surface. How much of the world's energy do they consume?

- a) 38%
- b) 48%
- c) 78%

## 12 RESPONSIBLE CONSUMPTION AND PRODUCTION

Is cheap/fast fashion sustainable?

- a) No because people are all wearing the same clothes
- b) No because it's responsible for huge amounts of water waste, water pollution and green gas emissions
- c) Yes, because it provides cheap clothing for all

## 13 CLIMATE ACTION

What is a greenhouse gas?

- a) A gas that becomes green when released in the atmosphere
- b) A gas produced by low energy houses
- c) A gas that prevents heat from the earth escaping into space

## 14 LIFE BELOW WATER

When corals experience stress from hot temperatures or pollution they turn what colour?

- a) Black
- b) White
- c) Grey

## 15 LIFE ON LAND

How many species are threatened with extinction?

- a) 10,000
- b) 100,000
- c) 1,000,000

## 16 PEACE, JUSTICE AND STRONG INSTITUTIONS

What is the purpose of climate-related lawsuits against governments or companies?

- a) Request financial compensation for plaintiffs
- b) Compel the actors to pursue more ambitious climate change mitigation and adaptation goals
- c) Change their leaders or managers

## 17 PARTNERSHIP FOR THE GOALS

Which country signed a US\$150 million agreement with Gabon to support the preservation of its forests and thus reduce carbon emissions?

- a) Norway
- b) The African Union
- c) Brazil

# SUSTAINABLE DEVELOPMENT GOALS

## 1 NO POVERTY

What does the concept of resilience mean in the context of climate change?

- a) Acceptance of the consequences of climate change
- b) The ability to anticipate, prepare for, and respond to the consequences of climate change
- c) Support from the international community to countries affected by climate change

## 2 ZERO HUNGER

What percentage of the world's population is affected by soil pollution, leading to reduced crop yields or yields unsuitable for consumption?

- a) 20%
- b) 40%
- c) 50%

## 3 GOOD HEALTH AND WELL-BEING

What can improve your health and fight climate change at the same time?

- a) Driving an electric car with ergonomic seats
- b) Walking or riding a bike
- c) Wearing compression socks during long distance flights

## 4 QUALITY EDUCATION

How does climate change affect education?

- a) Students are losing days at school because they are joining climate protests
- b) Extreme weather events destroy or damage school buildings
- c) Large number of teachers in affected countries are migrating

## 5 GENDER EQUALITY

In a 2019 UN Security Council debate, how many states recognized the importance of gender in responding to climate-related security risks?

- a) 5 out of 75
- b) 32 out of 75
- c) 58 out of 75

## 6 CLEAN WATER AND SANITATION

By 2050, how many people could be living in areas where water is scarce for at least one month a year?

- a) Up to 57 million
- b) Up to 570 million
- c) Up to 5.7 billion

## 7 AFFORDABLE AND CLEAN ENERGY

Who said that the world should end the "deadly addiction to coal"?

- a) António Guterres, UN Secretary General
- b) Greta Thunberg, climate activist
- c) Tedros Adhanom Ghebreyesus, head of the World Health Organisation

## 8 DECENT WORK AND ECONOMIC GROWTH

What is a green job?

- a) A job that contributes to the preservation or restoration of the environment
- b) A job in the forest management field
- c) A job that can only be done outdoors

## 9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

What is a circular economy?

- a) Materials and products circulated free of taxes around the globe
- b) Materials and products are sourced, transformed, and sold in at least four continents
- c) Materials and products can be reused or recycled and thus remain in the economy for as long as possible

## 10 REDUCED INEQUALITIES

What are the economic opportunities of adapting to climate change?

- a) Stimulation of investment and innovation and job creation
- b) New lucrative digital businesses
- c) Decrease of global population

## 11 SUSTAINABLE CITIES AND COMMUNITIES

Today, around 55% of the world's population lives in towns and cities. What is the projected level of urbanisation in 2050?

- a) 90%
- b) 70%
- c) 60%

## 12 RESPONSIBLE CONSUMPTION AND PRODUCTION

Global video streaming consumption emits 300 million tons of CO<sub>2</sub> per year. This is equivalent to the annual greenhouse gas emissions of which country?

- a) Sudan
- b) Spain
- c) South Korea

## 13 CLIMATE ACTION

What is the name of the gas that is responsible for 75% of the warming effect from greenhouse gases?

- a) Carbon Dioxide (CO<sub>2</sub>)
- b) Chlorine
- c) Nitrous Oxide

## 14 LIFE BELOW WATER

How do the oceans help limit climate change?

- a) Evaporation of water reduces the temperature of the atmosphere
- b) The oceans absorb about 23% of annual human-induced CO<sub>2</sub> emissions
- c) Ocean water reflects sunlight

## 15 LIFE ON LAND

What is the impact of climate change on chocolate?

- a) Cocoa beans will be too hot to handle
- b) The cacao plant may disappear if global warming is not reversed
- c) Chocolate production will become easier due to higher temperatures

## 16 PEACE, JUSTICE AND STRONG INSTITUTIONS

Why is climate change considered a "threat multiplier" in conflict settings?

- a) Because in a hot environment people are more likely to fight over a multitude of threats such as hurricanes, fires etc.
- b) Because in conflict-affected settings the consequences of climate change can compound existing tensions
- c) Because it is a divisive issue between states, a source of tension

## 17 PARTNERSHIP FOR THE GOALS

"Nationally Determined Contributions" are the targets and commitments defined by each country to contain global warming. How often must they be updated?

- a) Every 3 years
- b) Every 5 years
- c) Every 10 years

# SUSTAINABLE DEVELOPMENT GOALS

## 1 NO POVERTY

According to the World Bank, what is extreme poverty?

- a) Living on less than \$1.9 a day
- b) Being deprived of food longer than one day per week
- c) Being unemployed

## 2 ZERO HUNGER

What is the percentage of global greenhouse gas emissions from food waste globally?

- a) 0.5%
- b) 2%
- c) 8%

## 3 GOOD HEALTH AND WELL-BEING

How many plastic particles do we ingest per week due to plastic pollution in the environment?

- a) The equivalent of a pen cap
- b) The equivalent of a credit card
- c) The equivalent of a large water bottle

## 4 QUALITY EDUCATION

Which UN organisation is responsible for promoting "education for climate action"?

- a) UNESCO - The United Nations Educational, Scientific and Cultural Organization
- b) UNICEF - The United Nations Children's Fund
- c) UNHCR - The UN Refugee Agency

## 5 GENDER EQUALITY

Women are now running pastoralist communities in Sudan due to the impacts of climate change. Why?

- a) Men are more vulnerable to disasters; they are the last to be rescued and therefore the first to die
- b) Men tend to migrate for work, while women stay in the village all year round
- c) Women tend to fight and speak up more against climate-related injustices

## 6 CLEAN WATER AND SANITATION

How many children under the age of five die of diarrhoeal diseases every day worldwide due to lack of appropriate water and sanitation services?

- a) 7 per day
- b) 70 per day
- c) 700 per day

## 7 AFFORDABLE AND CLEAN ENERGY

What does "mitigation" mean in the field of global warming?

- a) Climate change mitigation refers to efforts to reduce or prevent emission of greenhouse gases.
- b) Having both clean and fossil energy sources in almost equal proportions
- c) Back-tracking in the move towards more sustainable energy

## 8 DECENT WORK AND ECONOMIC GROWTH

What are the characteristics of the green economy?

- a) Low carbon, resource efficient and socially inclusive
- b) Sourcing all materials from protected areas
- c) Producing at least 50% of organic material

## 9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

What is a positive energy building?

- a) A building that doesn't need to outsource its energy
- b) The primary energy consumption is equal to less than the energy supplied to the building
- c) A building that gives inhabitants a sense of positivity and purpose

## 10 REDUCED INEQUALITIES

What is the role of the Special Rapporteur on human rights and the environment?

- a) Ensuring a clean and healthy environment is part of human rights protection
- b) Eliminating extreme poverty in countries affected by climate change
- c) Taking part in climate actions such as planting trees, beach clean-ups etc.

## 11 SUSTAINABLE CITIES AND COMMUNITIES

What is a '15-minute city'?

- a) A city where all basic services are accessible in 15 minutes' walk or bike ride
- b) A city built in 15 minutes from sustainable material
- c) A city situated less than 15 minutes from the capital

## 12 RESPONSIBLE CONSUMPTION AND PRODUCTION

What is a vegan?

- a) Someone who does not eat animal products
- b) Someone who restricts their diet based on religious beliefs
- c) Someone who does not eat broccoli

## 13 CLIMATE ACTION

What is a COP?

- a) A regular forum organised by the UN to discuss climate policies
- b) A group of food producers from around the world
- c) A conference of the presidents of the most polluting countries

## 14 LIFE BELOW WATER

The existence of plastic in the ocean is a huge environmental problem. How many plastic bottles are sold in the world?

- a) One million every day
- b) One million every hour
- c) One million every minute

## 15 LIFE ON LAND

What is the main driver of deforestation?

- a) Paper, furniture and building production
- b) Agricultural expansion (palm oil, cattle ranches, and soy)
- c) Clearing space for people to live

## 16 PEACE, JUSTICE AND STRONG INSTITUTIONS

What is a peacekeeper?

- a) Peacekeepers are UN lawyers who take criminals and corrupt officials to court
- b) Peacekeepers are UN soldiers and civilians who monitor and observe peace processes in post-conflict zones
- c) Peacekeepers are UN Diplomats who build relationships between neighbouring countries

## 17 PARTNERSHIP FOR THE GOALS

When is the international community aiming to reach net zero emissions of greenhouse gases?

- a) By 2079
- b) By 2030
- c) By 2050

# SUSTAINABLE DEVELOPMENT GOALS

# SUSTAINABLE DEVELOPMENT GOALS

The purpose of the GO GOALS! game is to help you understand the Sustainable Development Goals, how they impact your life and what you can do every day to help achieve the 17 Goals by 2030. Let's play together to make the world a better place!

[www.go-goals.org](http://www.go-goals.org)

## GO GOALS!

# SUSTAINABLE DEVELOPMENT GOALS

## GO GOALS!

*Playing and building the future*

[www.go-goals.org](http://www.go-goals.org)

Dear friends!

Our aim is to help people understand their role in the future of the planet as individuals, team players and most importantly, as responsible global citizens.

In order to build a better world for everyone and the planet, the Member States of the United Nations have agreed to do their utmost to achieve 17 Sustainable Development Goals (SDGs) by 2030.

We need younger generations to be key players for a brighter future. For this purpose we have created the "Go Goals!" game for children aged 8-10. Designed to be fun and engaging, this game informs children while motivating them to actively pursue the SDGs.

Your role as an educator is crucial! With help from people like you, your family, your friends and community, we will be able to achieve the goals. Remember: even small steps can help to make a big difference if millions around the world are involved!

We hope that you enjoy this game! You are invited to download it and follow the instructions and rules below.

Thank you for making the world a better place!

For 4 to 6 players  
Playing time: 30 to 40 mins

## HOW TO PLAY THE GAME

There are 63 spaces on the board game. Players advance the number of spaces determined by rolling a single dice

Each player places their token on the Start field

Players take turns to roll the dice and move their tokens forward the number of spaces as shown on the dice

If a player lands at the bottom of a ladder, they can immediately climb to the top

If a player lands at the top of a waterslide, they immediately move to the bottom of the slide

The first player to arrive on the field '2030' is the winner!  
If a player throws the required number, they must step forward into field '2030' and then move backwards the surplus number of spaces

If a player lands on a Sustainable Development Goal field (1-17), they can draw a card corresponding to the goal number. Another player should read the card question. A correct answer from the card drawer will allow the player to roll the dice once again

## HOW TO CONTRIBUTE TO THE SDGs

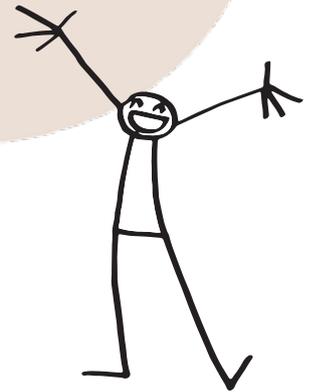

Change begins with us. We need to make sure we are well informed about the causes and possible solutions to the world's issues. Only then can we make small positive actions in our everyday lives: from talking constructively with our families, friends and communities, to organising ourselves and urging governments to listen to the voices of their citizens.

# SUSTAINABLE DEVELOPMENT GOALS

**THE SUSTAINABLE DEVELOPMENT GOALS** are 17 global targets designed to end poverty, protect the planet and ensure prosperity for all.

**1. NO POVERTY**  
END POVERTY IN ALL ITS FORMS EVERYWHERE

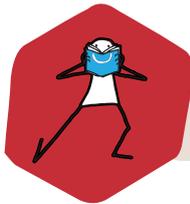

**2. ZERO HUNGER**  
END HUNGER, ACHIEVE FOOD SECURITY AND IMPROVED NUTRITION AND PROMOTE SUSTAINABLE AGRICULTURE

**3. GOOD HEALTH AND WELL-BEING**  
ENSURE HEALTHY LIVES AND PROMOTE WELL-BEING FOR ALL AT ALL AGES

**4. QUALITY EDUCATION**  
ENSURE INCLUSIVE AND EQUITABLE QUALITY EDUCATION AND PROMOTE LIFE LONG LEARNING OPPORTUNITIES FOR ALL

**5. GENDER EQUALITY**  
ACHIEVE GENDER EQUALITY AND EMPOWER ALL WOMEN AND GIRLS

**6. CLEAN WATER AND SANITATION**  
ENSURE AVAILABILITY AND SUSTAINABLE MANAGEMENT OF WATER AND SANITATION FOR ALL

**7. AFFORDABLE AND CLEAN ENERGY**  
ENSURE ACCESS TO AFFORDABLE, RELIABLE, SUSTAINABLE AND MODERN ENERGY FOR ALL

8.

### DECENT WORK AND ECONOMIC GROWTH

PROMOTE SUSTAINED, INCLUSIVE AND SUSTAINABLE ECONOMIC GROWTH, FULL AND PRODUCTIVE EMPLOYMENT AND DECENT WORK FOR ALL

9.

### INDUSTRY, INNOVATION AND INFRASTRUCTURE

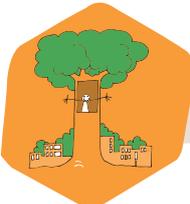

BUILD RESILIENT INFRASTRUCTURE, PROMOTE INCLUSIVE AND SUSTAINABLE INDUSTRIALIZATION AND FOSTER INNOVATION

10.

### REDUCED INEQUALITIES

REDUCE INEQUALITY WITHIN AND AMONG COUNTRIES

11.

### SUSTAINABLE CITIES AND COMMUNITIES

MAKE CITIES AND HUMAN SETTLEMENTS INCLUSIVE, SAFE, RESILIENT AND SUSTAINABLE

12.

### RESPONSIBLE CONSUMPTION AND PRODUCTION

ENSURE SUSTAINABLE CONSUMPTION AND PRODUCTION PATTERNS

13.

### CLIMATE CHANGE

TAKE URGENT ACTION TO COMBAT CLIMATE CHANGE AND ITS IMPACTS

14.

### LIFE BELOW WATER

CONSERVE AND SUSTAINABLY USE THE OCEANS, SEAS AND MARINE RESOURCES FOR SUSTAINABLE DEVELOPMENT

15.

### LIFE ON LAND

PROTECT, RESTORE AND PROMOTE SUSTAINABLE USE OF TERRESTRIAL ECOSYSTEMS, SUSTAINABLY MANAGE FORESTS, COMBAT DESERTIFICATION, AND HALT AND REVERSE LAND DEGRADATION AND HALT BIODIVERSITY LOSS

16.

### PEACE, JUSTICE AND STRONG INSTITUTIONS

PROMOTE PEACEFUL AND INCLUSIVE SOCIETIES FOR SUSTAINABLE DEVELOPMENT, PROVIDE ACCESS TO JUSTICE FOR ALL AND BUILD EFFECTIVE, ACCOUNTABLE AND INCLUSIVE INSTITUTIONS AT ALL LEVELS

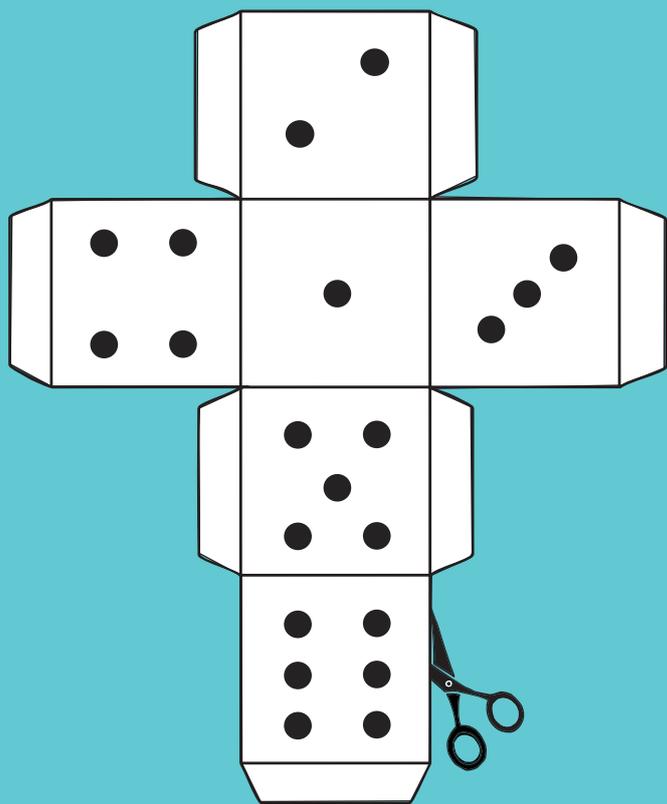

17.

### PARTNERSHIPS FOR THE GOALS

STRENGTHEN THE MEANS OF IMPLEMENTATION AND REVITALIZE THE GLOBAL PARTNERSHIP FOR SUSTAINABLE DEVELOPMENT

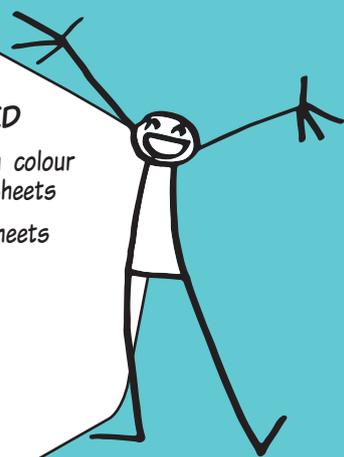

# DO IT YOUR SELF KIT

## DICE

### WHAT YOU NEED

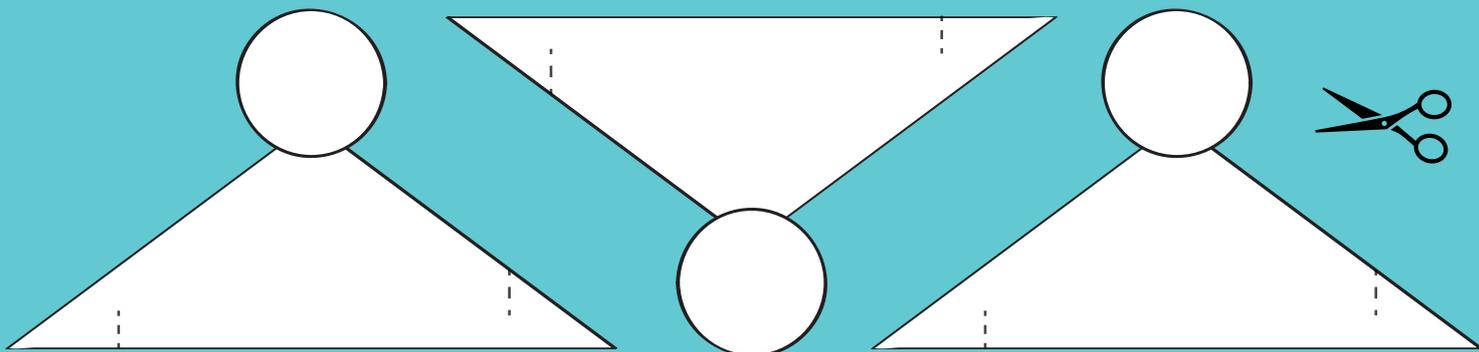

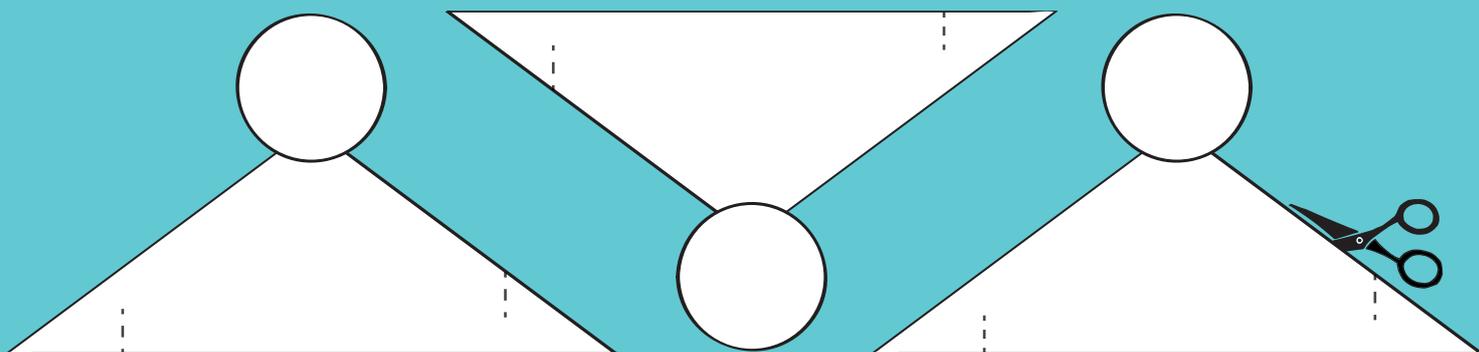

1. A color printer ideally in colour for A4 and A3 format sheets
2. X sheets in A4 and X sheets in A3 formats
3. Scissors
4. Glue
5. Coloured pens

### PREPARING THE MATERIALS

1. Cut out dice and player tokens
2. Have fun creating and coloring your own player tokens
3. Glue the dice and player tokens

## PLAYER - TOKEN

## THANK YOU FOR PLAYING WITH US!

Stay in touch and get involved by:

- Registering on the website for e-news on the game, including updates to questions, new language versions and much more
- Sending us your suggestions and feedback. Tell us how you've been using the game, what the children think, and how you think we can improve the game
- Submitting questions for the game
- Spreading the word on social media, using #SDGGame, share and tag yourself playing the game. We would love to feature pictures and videos of you playing the game on our social media

To contribute to a local language version and for queries related to the project, please contact: [info@go-goals.org](mailto:info@go-goals.org)

The Sustainable Development Goals board game, "Go Goals!" was created and designed by the United Nations Regional Information Centre (UNRIC), in partnership between the artist Yacine Ait Kaci (YAK), creator of Elyx.

The "Go Goals!" board game may be reproduced without prior permission, provided that it be distributed at no cost.

The drawings by YAK included in this board game are protected by copyright and can only be reproduced to illustrate the SDGs.

Publishers are required to include proper credits.

All queries or suggestions concerning the game should be addressed to [info@go-goals.org](mailto:info@go-goals.org).
